

Allworx® Connect™ Vx

Get the cloud communication you need – easy and affordable

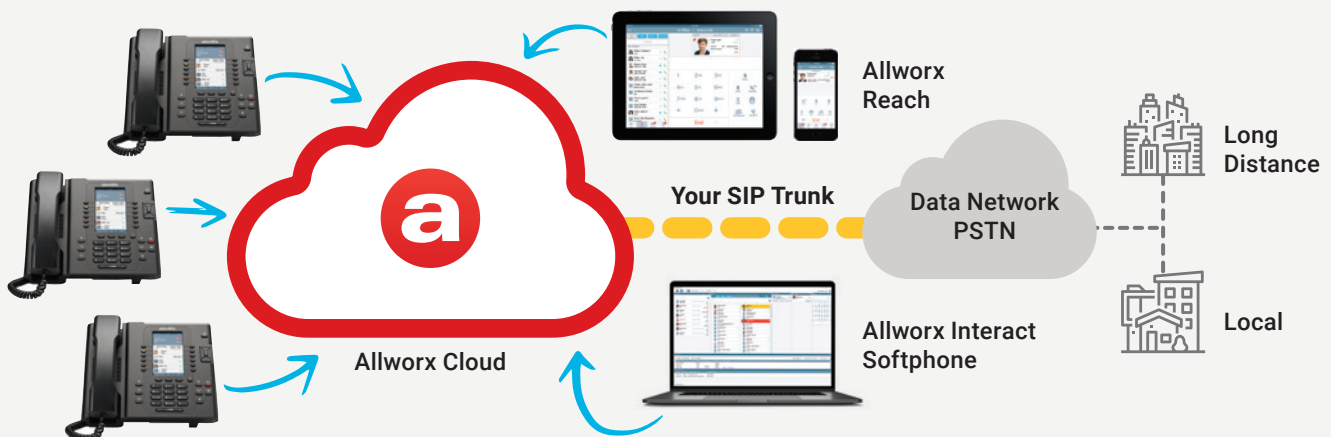

Allworx has delivered integrated business voice communications for over 20 years. Our “work anywhere with Allworx” products streamline the features your business needs most – mobility, desktop integration, sophisticated call centers, full analytics, security – into one completely integrated package.

And to create even more options and flexibility, Allworx is now introducing **Allworx® Connect™ Vx** – a new cloud-based platform. Now you can move your voice communications to the cloud quickly, inexpensively and at a fraction of the typical upfront cost of a new on-premise phone system – while maintaining full integration with our “wow” feature set! The cloud-based Allworx Connect Vx platform offers you many advantages:

- ✓ Pay monthly without major capital expense
- ✓ Grows seamlessly with your business
- ✓ Secure & climate controlled carrier-grade data centers with 24/7/365 monitoring
- ✓ Redundant computing and storage hardware with automatic failover
- ✓ Multiple ISP links
- ✓ Lifetime warranty

Allworx Connect Vx – an over-the-top dedicated software application

Allworx simplifies VoIP and the cloud with total integration

Existing Allworx customers can move to the cloud with no change to their work processes, no interruption to their business, and no change to users. It's easy and convenient!

We design the software AND the phones for the best user experience:

- Software and hardware are **completely integrated** for a consistent powerhouse feature set
- Cloud-based and premise-based systems are **completely integrated** so each one of your sites can use the best option for their region, whether it's rural or urban

Trade in now and move to the cloud

Enjoy the advantages of our cloud-based platform while maintaining the same amazing feature set you love today ... **trade in your existing Allworx server and get a great deal on Allworx® Connect™ Vx!**

- Mobility integration with Allworx Reach™ and Allworx Interact™ Softphone means you can work anywhere with Allworx, seamlessly moving your mobile calls from one network to another.
- Easily tie multiple sites together when your business grows.
- Set up your Call Center with the sophisticated Allworx Automatic Call Distribution solution.
- Allworx Connect Vx provides multiple secure data centers with configuration and power redundancy.

"Admin is just as easy as it was when the servers were on-premise."

— Girl Scouts of Central Illinois
